REXUS sells cooling products of GELID Solutions

Distribution co-operation between distributor Rexus and cooling specialist GELID Solutions

HONG KONG / Walnut, 19.11.2008 – Famous distributor of PC hardware in North America Rexus has started to distribute cooling products of GELID Solutions. GELID Solutions is a Hong Kong company with Swiss Management, which creates innovative cooling solutions such as CPU coolers for Intel and AMD, case fans, VGA coolers, thermal compound and PC accessories, etc. for gamer and silent enthusiasts.

“We are looking forward to increase our market share with GELID solutions. Together as a team, we hope Rexus and GELID Solutions will provide buyers in North America a clear sense of product quality this company has to offer,” said Yvonne Schafer, General Manager of Rexus Corporation.

“We are looking forward to co-operate with Rexus as we know they are very competent and know the local market well“ said, Gebhard Scherrer, co-founder and Sales Director of GELID Solutions.
